

HOW TO COMPLETE THE THEORETICAL KNOWLEDGE ASSESSMENT

For the initial issue of an Aircraft Maintenance Licence (AML), the candidate completes the applicable initial training and passes the theoretical examinations for the modules prescribed for the requested AML category or subcategory.

Before the examination • Determine the AML category/subcategory: A, B1.1, B1.2, B1.3, B1.4, B2 or B3. • Complete initial training for the applicable modules or prepare independently where permitted by Rules No. 362. • Pass all modules required for the selected category. The pass mark for each module is at least 75 %.	If the training was completed abroad • For the initial issue of an AML, training/examination documents meeting the requirements of Rules No. 750 may be accepted. • Where applicable, completion of Module 10RK “Kazakhstan and International Aviation Legislation” must also be confirmed. • Certificates confirming successful completion of modular theoretical examinations for initial AML issue must be no more than 10 years old from the date of issue.
---	--

Where the examination is conducted

The theoretical knowledge assessment is conducted by a designated examiner using the approved question bank for the relevant modular programme. Written assignments (essay) are prescribed for certain modules.

Procedure

1	Determine the AML category - the selected category or subcategory determines the applicable modules and the required level of knowledge.
2	Complete the training - complete initial training at a certified ATO, a recognised foreign training centre, or prepare independently where permitted by Rules No. 362.
3	Register for the examination - submit the documents required for admission and obtain information on the place, date and time of the examination.
4	Pass the applicable modules - the examination is conducted for the modules prescribed for your AML category; certain modules may include multiple-choice and written assignments.
5	Receive the result - a module is passed with a result of at least 75 %. After passing all applicable modules, obtain the document confirming the examination results.

Key rules

75 % minimum pass mark for each module	3 options one correct answer in each multiple-choice question	75 seconds per multiple-choice question	20 minutes per written assignment (essay)
---	--	--	--

RETAKING MODULES

If a module is failed, only that module is retaken. Modules already passed successfully are not retaken.

90 days standard retake of a failed module - no earlier than 90 days after the assessment	30 days if the ATO provides additional training for the failed module - no earlier than 30 days	3 attempts no more than 3 consecutive attempts for each module; a new series of 3 attempts is allowed after a 1-year waiting period
---	---	---

What is assessed

Knowledge content - aviation legislation of the Republic of Kazakhstan and applicable international requirements; - mathematics, physics and electrical/electronic fundamentals to the level required for the category; - materials, standard parts, aircraft structures and systems; - maintenance, methods and procedures for performing work; - human factors and maintenance safety.	Assessment format - assessment is conducted for the applicable modules; - each multiple-choice question has 3 answer options, of which 1 is correct; - written assignments (essay) are used for certain modules; - the pass mark for each module is at least 75 %; - results are recorded in the prescribed manner.
Validity of theoretical examination documents For the initial issue of an AML, certificate(s) confirming successful completion of the modular theoretical examinations are submitted in accordance with Rules No. 750. Such certificates must be no more than 10 years old from their date of issue.	
After completing the theoretical part The candidate completes the remaining qualification requirements, including the requirements for practical training and experience.	
If you disagree with the result The result of the qualification examination may be appealed in accordance with Rules No. 517. The appeal is submitted to Aviation Administration of Kazakhstan JSC using the prescribed form and within the time limits specified by the Rules.	

Regulatory basis

Rules No. 362 - qualification requirements and theoretical knowledge requirements; Rules No. 517 - theoretical knowledge assessment and retake procedure; Rules No. 750 - AML issue procedure and requirements for supporting documents; AAK-PEL-M.1033 - applicable procedures for organising the activities of designated examiners/assessors.
