

**Comparison of Personnel Qualification Categories, Roles, and Functions under Rules
№141 (SAE AS6286D) and SAE AS6286E**

Personnel qualification categories			Role of the category	Main functions of the role
Rules 141/ SAE AS6286 D		SAE AS 6286 E		
DI-L 10		DI-L 10	Deicing Vehicle Driver	Operation of aircraft de-icing/anti-icing vehicle.
DI-L 20		DI-L 20	Operator	Inspection for the presence of contaminants, performance of aircraft de-icing/anti-icing operations, and post-treatment inspection.
	Новая	DI-L 30	Engine Contamination Removal Personnel	Removal of contaminants from aircraft engines and propellers using specialized equipment.
DI-L 30		DI-L 40	Deicing Supervisor	Supervision and control of the activities of operators involved in aircraft de-icing/anti-icing operations.
DI-L 30B		DI-L 50	Personnel Performing Pre- and Post-Deicing Inspection	Определение необходимости проведения обработки и выполнение проверки воздушного судна после ПОО ВС.
DI-L 50		DI-L 60	De-Icing/Anti-Icing Coordinator	Organization and management of the treatment process, including coordination of personnel activities and acting as the team leader.
	New	DI-L 70	Communicator	Communication of the aircraft de-icing/anti-icing code to the flight crew in English.
DI-L 60		DI-L 80	De-Icing/Anti-Icing Fluid Quality Control (Laboratory)	Performance of de-icing/anti-icing fluid quality control in accordance with established laboratory procedures.
	New	DI-L 90	De-Icing/Anti-Icing Fluid Quality Control (Field)	Performance of field quality control of de-icing/anti-icing fluids in accordance with established procedures.
DI-L 40		DI-L 100	De-Icing/Anti-Icing Instructor	Provision of theoretical and practical training, as well as assessment of knowledge and practical skills.
	New	DI-L 110	Auditor	Conducting internal and/or external audits of aircraft de-icing/anti-icing processes and assessing their compliance with established requirements.
DI-L 70		DI-L 120	Head of Deicing Training	Development, review, and approval of the training program, coordination of instructors, and ensuring that training materials are kept up to date.
DI-L 80		DI-L 130	Flightcrew	Knowledge of aircraft ground de-icing/anti-icing processes, applicable procedures, and interaction with ground personnel to ensure compliance with the clean aircraft concept.
DI-L 80B		DI-L 140	Cabin crew	Awareness of aircraft de-icing/anti-icing operations.
