## New Success in the 'Carbon Net Zero' Target

iGA Istanbul Airport has reached Level 4 in the "Airport Carbon Accreditation" certificate awarded to airports by ACI EUROPE, with its actions in line with the 2050 Net Zero Carbon commitment in the fight against climate change.

As the first recipient of this certificate in Level 4 in Türkiye, iGA Istanbul Airport has moved one step closer to its "Net Zero by 2050" goal.

## Excellent environmental management: Lufthansa Airlines at Frankfurt hub receives EMAS seal of approval

The Lufthansa Airlines hub in Frankfurt has been successfully validated for the first time in accordance with the demanding European EMAS (Eco-Management and Audit Scheme) regulation. Lufthansa Airlines is thus also setting an important example of corporate environmental responsibility at its Frankfurt location.

## **QANTAS GROUP RESPONDS TO AVIATION GREEN PAPER**

Qantas Group has today released its response to the Federal Government's Aviation Green Paper as part of a process to help shape a 30-year strategy for the Australian aviation industry.

The detailed submission recommends a number of reforms and gives the national carrier's view on a range of questions posed by government – including on customer rights, decarbonisation, noise, future skilled workforce and airport regulation.

## **All 14,000 crew will be issued with reusable cups and cutlery from January 2024**

In an industry first and following a successful trial, easyJet is equipping all circa. 14,000 of its crew (pilots and cabin crew) with reusable cups and cutlery in a mission to cut down on disposable single use items.

In total, the initiative is expected to prevent more than 10 million single use items from being used per year – equivalent to 71 tonnes per year\* and forms part of easyJet's ongoing commitment to lower the impact of its operations.

## **Cop28 delivers historic consensus in dubai to accelerate climate action**

Today, the Parties agreed a landmark text named The UAE Consensus, that sets out an ambitious climate agenda to keep 1.5°C within reach. The UAE Consensus calls on Parties to transition away from fossil fuels to reach net zero, encourages them to submit economy-wide Nationally Determined Contributions (NDCs), includes a new specific target to triple renewables and double energy efficiency by 2030, and builds momentum towards a new architecture for climate finance.
